Catering and other orders undertaken

These days so much of our food is grown with pesticides and agrichemicals and prepared with artificial flavors, colors, and preservatives and highly processed oils and sugars.

At the same time, we've seen a rise in health problems: obesity, kidney disease, cancers, diabetes, gastritis, high blood pressure and heart disease, eye, skin, and lung disease, infertility and birth defects.

Have you ever thought that these two things might be related?

Well.....

- ★ Now you have a trustworthy place where you can buy food for you and your family that is safe, nutritious, and tasty. You can choose to buy health, not sickness.
- ★ We know how busy you are. Ranbatha is open from 6.30 every morning so you and your children can have breakfast on the way.
- ★ At Ranbatha, you can find heirloom rice packs, Three Star Organic mushroom and green leaves packets that you recognize from the supermarket, tasty snacks and healthy traditional meals all under one roof.
